

IAAO Course 600: Principles & Techniques of Cadastral Mapping

This course is designed as a comprehensive and interactive program that introduces entry-level map maintenance personnel and assessment technicians to the cadastral mapping field. Students will learn basic mapping principles and techniques and are expected to demonstrate basic skills in order to plot deeded descriptions in both metes and bounds and the Public Land Survey systems.

This course includes an optional exam. The exam is required for Idaho students using the course to meet state certification requirements.

Successful completion of this course meets one of Idaho's three requirements for becoming a "Certified Cadastral Specialist."
