## **Residential Quality, Condition, & Effective Age**

This workshop will review the characteristics that determine construction quality for residential properties by use of the Marshall & Swift Valuation Service. Photographs of homes will be included in the presentation and will facilitate extensive classroom participation. Actual construction costs will also be considered as a guide to determining quality.

Topics include:

- USPAP Review
- The Cost Approach
- Quality of Construction
- **Physical Condition**
- Physical Deterioration Using Effective Age
- **Functional Obsolescence** .
- External Obsolescence
- Depreciation & Effective Age Extraction
