

Unique & Challenging Homes

This workshop presents students with unique and challenging residential appraisal problems. By using case studies and actual market data, it'll walk students through the appraisal process of measuring value and/or value loss on unique problems such as tiny homes, container homes, straw bale homes, hemp homes, and more.

Instructor: Kara Endicott, CAE, RES, AAS, Team Consulting, LLC
Date: Thursday, July 25
Location: Delamar Conference Room (The Riverside Hotel)
Hours: 7 hours

Note: This workshop will require a minimum of 10 students
